Profile

I am a friendly, hardworking person who likes taking part in new challenges and learning new skills. I work very well within a team as well as being able to work as an individual. I am an enthusiastic person who attempts all tasks given and I consider myself to be responsible, reliable and honest, as well as my timekeeping being excellent. I have a strong interest in technology and design as well as helping others whenever they need it. I always strive to complete my work to the highest standard possible, even if it takes time.

Education

2015- Present **Northumbria University**
Interactive Media Design BA (Hons)

2013-2015 **Cramlington Learning Village Sixth Form**
4 A levels. Business B. ICT B. Sociology D. OCR Creative i-Media PASS.

2008-2013 **Cramlington Learning Village**
8 GCSE. Equivalent to C or higher including Maths, English and Science.

Work Experience

2016 2017 **SAGE ONE-**
I worked with the Sage One team on a live brief aimed at creating a new payroll software application. This resulted in the creation of a new Mobile Phone and Desktop Application, aimed at employers and employees.

2014 2016 **PREZZO-**
I was working as a waiter for the Prezzo Cramlington branch. Within this role, I was dealing with customers on a daily basis which allowed my customer service skills to advance. I also trained a numerous amount of the staff I worked with. This enabled me to improve on my management skills; since I was managing these individuals, allowing for my team work skills to be improved.

2014 **HEDGEHOG LAB-**
I competed a 2 week work experience at Hedgehog Lab Newcastle. I was able to get the feel of what working in the design industry would be like, which was part of the reason to why I decided to study in this industry. From the experience weeks, I picked up a lot of new skills as well as being introduced into the basics of HTML and CSS.
